## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 7, 2006 has been entered.

### ***Reasons for Allowance***

Claims 8-12 are cancelled.

Claims 1-7 and 13-24 are allowed.

This is examiner's statement of reasons for allowance.

Claims 1-7 are allowed for the reason that the prior art does not teach in claimed combination a template for a scanner system comprising: a template body adapted to receive a media object to be scanned, the template body usable with a scanning system capable of performing a reflective scan routine and a transparent scan routine ; and an element disposed on the template for generating an optical pattern when scanned in the scanner system, the optical pattern indicating to the scanner system whether to perform the reflective scan routine or the transparent scan routine for scanning the media object.

Claims 13-19 are allowed for the reason that the prior art does not teach in claimed combination a template for a scanner system comprising: a reflective scanner, a transparent

Art Unit: 2625

media adapter and a template to receive a media for scanning with an element for generating an optical pattern when scanned in the scanner system.

Claims 20-24 are allowed for the reason that the prior art does not teach in claimed combination a template for a scanner system comprising: a template body configured to receive a media object to be scanned, the template body usable with a scanner system capable of illuminating the media object with a reflective light source and a backlight source; and an element disposed on the template for generating an optical pattern when scanned in the scanner system, the optical pattern indicating to the scanner system whether to activate the reflective light source or the backlight source for scanning the media object.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
